Please join us at the peaceful Woodward Park in Fresno, CA for a time when people can gather and meet other people who have Epilepsy, a chance to discuss how their seizures differ from each other and learn how each person copes with and overcomes struggles from their seizures. An opportunity to meet and talk with those who have and those who treat people who have various kinds of seizures, to learn more information about Epilepsy, such as different types of seizures, different treatments of seizures, the newest ways to detect seizures, . . . , . . .

Please join us at Woodward Park. Everyone is welcome - (those with Epilepsy, family, friends and anyone who could benefit).

Sincerely,
